PBXCOL NETWORK: BE PART OF OUR SERVICES.
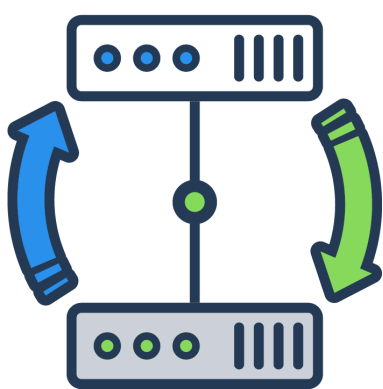

We provide smart solutions.

FOLLOW-UP FROM START TO END.

Professional team/Highly qualified.

We provide support and follow-up from the beginning to the delivery of each telecommunications project. Our main focus is voice over IP services (on-site servers or in the cloud).

OUR SERVICES: ALWAYS ONLINE

Cloud servers/High availability..

Servers on the cloud with 100% availability 365 days a year. Don't worry about communication cuts.

TECHNICAL SUPPORT 24/7.

High quality in each technical support.

We are always available to provide you with the best support and resolve any concerns or requirements that you may have regarding our services. You can contact us via email, WhatsApp, Skype, or by phone call. We have different tools or alternatives for remote support.

RELIABLE INFRASTRUCTURE.

Asterisk-based servers.

We provide high-quality standards in terms of hardware and software infrastructure. SSD technology for maximum efficiency in the treatment, storage, and manipulation of data. Intel Xeon @ 3GHz processors for fast processing. Servers based on Asterisk which is the world leader in open source telephony platforms.

OUR SPECIALTY: CONNECTING PEOPLE.

Our clients, our priority.

We care not only about providing quality services but also about having a friendly and pleasant treatment with those who are part of this growing network. Because in addition to joining companies with their clients, we also join families and friends.
